

OM PRAKASH JANGID

Software Engineer | Generative AI Engineer

+91 9571305470 | omprakashjangid206@gmail.com | [Linkedin](#) | [Github](#) | Pune, Maharashtra, India

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience developing scalable backend and serverless systems using Python, Django, FastAPI, and AWS. Experienced in building GenAI-powered solutions including semantic search, embeddings, and automation workflows. Delivered high-impact production systems that minimized manual effort by up to 70% and enhanced decision-making through data-driven insights.

TECHNICAL SKILLS

Languages & Databases: Python, SQL, JavaScript, MySQL, PostgreSQL, MSSQL Server

Frameworks & APIs: Django, FastAPI, Flask, REST APIs

Cloud: AWS (Lambda, API Gateway, S3, EventBridge, CloudWatch), Serverless Architecture

AI/GenAI: LLMs, RAG, Embeddings, Vector Search, Semantic Search, FAISS, Qdrant, OpenAI API, OCR, Fuzzy Matching, AI Automation, Prompt Engineering, Agentic AI

Tools & Libraries: Pandas, NumPy, Pydantic, GitHub, Jenkins

WORK EXPERIENCE

Moglix (Mogli Labs India Pvt. Ltd.)

July 2025 – Present

Software Engineer (Generative AI)

Noida, India

- **Vendor Recommendation System:** Implemented AI-powered vendor suggestion system using FastAPI and Qdrant, used an embeddings-based similarity and scoring model, reduced manual effort by 75% with 80% accuracy.
- **CS Automation Application:** Designed Flask + MySQL + Kafka-based CS app, eliminated manual processing, cut manual effort by 600+ hours/month and enhanced data accuracy.
- **Supplier Invoice Validation System:** Developed AI-driven invoice validation using Django, Kafka, OCR, embeddings, fuzzy matching, and prompt-based validation, achieved 75% auto-validation and reduced processing time by 70%.
- **Moglix Search Platform:** Enhanced GenAI-powered unified search across supplier, sourcer, and employee data using BigQuery & Django, optimized data retrieval by 40% and improved decision-making efficiency.

Lambdazen India Pvt. Ltd

April 2024 – June 2025

Software Engineer (Generative AI)

Thiruvananthapuram, India

- **Jira Ticket Creation System:** Automated AWS Lambda-based system for Jira ticket creation and assignment, eliminated manual reporting and reduced effort by 70%.
- **Order Reporting & Notification System:** Built serverless solution for automated daily reports and email notifications, saved 30 hours/week of manual effort and improved operational efficiency.
- **Order Tracking & Monitoring System:** Developed REST APIs integrating ShipEngine and IoT data loggers for real-time shipment tracking, increased tracking accuracy by 60% and lowered manual monitoring effort.
- **Chart Generator Application:** Built data visualization system using AWS and REST APIs, enabled Excel-based analytics and decreased manual data processing effort by 60+ hours/month.

PERSONAL PROJECTS

Furniture E-Shop:

January 2024 - March 2025

- Designed full-stack e-commerce application using Django with authentication, payments, and order tracking.
- Integrated authentication and optimized database schema to improve performance.

EDUCATION

AIMIT, St Aloysius College (Autonomous), Mangalore University

November 2022 – July 2024

Master of Computer Applications (MCA)

CGPA: 8.2

Anjuman Institute Of Technology And Management, Karnataka University

November 2018 – August 2022

Bachelor of Computer Applications (BCA)

CGPA: 8.3
