SUMMARY

Power Platform Developer with 4+ years of hands-on experience building end-to-end solutions using Power Apps, Power Automate, Power Pages, Copilot Studio, SharePoint, Dataverse, SQL Server. Skilled in low code / no code app development, automation and workflow optimization, data integration, building secure and responsive web portals, building agents and chatbots. Strong background in testing, debugging and collaborating with business teams to deliver scalable, impactful solutions.

SKILLS

Power Platform: Power Apps, Power Automate, Power Pages, Copilot Studio

Databases and Data: Dataverse, SharePoint, MSSQL

Programming Languages and Web: Power Fx, Java, Dotnet, JavaScript, C, HTML5, CSS3

Cloud and DevOps: Azure, Azure DevOps

Testing: Manual Testing, Regression Testing, Unit Testing

Soft Skills: Problem-Solving, Communication, Quick Learner, Leadership, Time Management

Languages: English, Hindi

WORK EXPERIENCE

1. Power Platform Developer - Verdantas, Pune (Sep 2025 - Present)

- Building and enhancing internal business solutions using Power Apps and Power Automate.
- Designing scalable data models and workflows using Dataverse and SharePoint.
- Automating manual processes and Improving operational efficiency.
- Collaborating with managers, SMEs and cross-functional teams for requirements and UAT.

Project: Contracts Management App (Greenlight App)

Role: Power Platform Developer

- Designed and developed a full-scale in-house Contracts Management App (initially modeled after Ironclad), later rebranded as *Greenlight App* per Legal Team recommendations using Power Apps, Power Automate and SharePoint.
- Automated complete contract lifecycle reducing manual effort by 30% and cycle time by 3 hours per request.
- Built responsive UI, Greenlight ID automation, approval routing logic and metadata-driven document management.
- Created 10 cloud flows eliminating 20+ manual interactions monthly.
- Improved legal team efficiency by 30% through routing rules and automated handoffs.

2. Power Platform Developer – Freelance (Feb 2025 – Aug 2025)

- Delivered Power Apps & Power Automate solutions for small businesses.
- Built automated workflows for data collection and document processing.
- Created custom connectors and integrated SharePoint/SQL backends.

3. Career Break (Sep 2024 – Jan 2025)

- Took a planned 5-month career break for personal development and upskilling in Power Apps, Power Automate, Copilot Studio and advanced SQL concepts.
- Continued working on small personal projects and internal prototypes to strengthen Power Platform expertise.

4. Power Platform Developer - PwC, Bengaluru (June 2021 – Aug 2024)

Project: PFIC Identification

Role: Power Platform Developer

- Developed a Power Canvas App for PFIC identification to manage and streamline passive foreign investment company-related data and reduce manual effort by 35%.
- Conducted manual and end-to-end testing to ensure accurate PFIC classification for tax compliance.
- Utilized Power Automate to automate data refreshes, notifications and approval workflows to reduce manual effort.
- Tested workflow & integrations with tax systems & user inputs. Collaborated with BAs and tax expert to align testing with tax rules.
- Validated data storage and retrieval from MSSQL Server and developed stored procedure on MSSQL Server for data management.
- Verified system integration and conducted end-to-end testing to ensure data and tax report accuracy.

Project: ARES Management

Role: Power Platform Developer

- We developed a robust Power Canvas App for ARES Management to manage and streamline tax-related data processes.
- Performed manual testing to validate tax-related functionalities. Tested workflows for identifying and reporting integration issues.
- Validated data integrity in Dataverse for ensuring accurate tax data storage and retrieval for reporting and compliance purposes.
- Executed regression testing after each app update to ensure new features maintained the existing tax-related workflows and ensured 100% workflow stability. Resolved integration issues reducing error rate by 30%.
- Collaborated with developers and BAs for requirement clarification and test coverage.

CERTIFICATIONS

- AZ-900 (Microsoft Azure Fundamentals)
- DP-900 (Microsoft Azure Data Fundamentals)
- Alteryx Designer Core, Alteryx Foundational Micro-Credential
- NPTEL: Java (85%), C (64%), DBMS (58%)

INTERNAL PROJECTS AND INITIATIVES

- Carteno App: Developed Carteno App using Power Apps, Power Automate and Dataverse to streamline online ordering & shopping.
- Chatbot: Designed and implemented simple chatbots using Copilot Studio to automate customer interactions, answer frequently asked questions and enhance user experience.
- Power Apps & Power Automate: I have used Power Apps and Power Automate in multiple internal projects and initiatives.

EDUCATION

Truba College of Science & Technology

Bachelor of Engineering in Computer Science and Engineering, CGPA: 8.75

Aug 2016 – Sep 2020

Bhopal, MP
